

**Maheshwari Public School, Ajmer**  
**Pre- Mid Examination (2018 – 2019)**

**Class: IV**

**Subject: English**

**Time: 40 min**

**MM: 20**

**Note: All the questions are compulsory.**

**Read the passage and answer the following questions:**

A forest is known as an intricate ecosystem. It is densely covered with trees, shrubs and grasses. The trees and other plants that form a part of the forests create an environment that is healthy for the breeding of several species of animals. These are thus a habitat for a large variety of wild animals and birds. Different types of forests grow in different parts of the world. These are mainly divided into three categories – Rain Forests, Coniferous Forests and Deciduous Forests. Forests form an important part of the ecological system mainly because they aid majorly in biodiversity. A large number of birds and animals survive only because of the presence of forests.

**Q.1) Which are the three categories of forests? (1)**

**Q.2) "It is densely covered with trees, shrubs and grasses"  
What does it here refer to? (1)**

**Q.3) Fill in the blanks with correct answer: (1x3=3)**

- a) Different types of forests grow in different parts of the \_\_\_\_\_.
